FRIGO

### Standard Configuration

- › DC Brushless Rotary Compressor
- › Inverter Modulation 25% - 100%
- › EC Fans
- › Small Footprint
- › K65 Connections
- › Design Pressure:  
120 bar (high pressure side)  
80 bar (liquid line)  
80 bar (suction)

### Options

- › Adiabatic System
- › Water Cooled Gas Cooler

According to SCM Natural Choice, we have developed a range of CO2 transcritical condensing units with a very low carbon footprint and lower energy consumption than the traditional HFC solutions. Design is compact and units are easy to install and maintain. Units are equipped with gas cooler and electrical panel, tested and factory programmed for an easy start-up.
