

01 Oct 2024

To our valued customers,

Please be advised that we are writing to advise that refrigerant pricing is likely to see higher levels of volatility in the coming months and for the foreseeable future.

We urge that all customers start using refrigerants other than R404A and R507 for their refrigeration project needs and invite you to work with our team of specialists in products that can suit your specific needs.

Our next scheduled review of refrigerant price changes will become effective on the 1<sup>st</sup> of November 2024.

Whilst we try and provide a notice period for all price changes this is not always possible especially with commodity items. We encourage customers to log in and review pricing via the Beijer Ref RefShop or contact your nearest branch / representative for more information. Please note all quotations will remain valid for 30 days.

We appreciate your ongoing business and support.

Best regards,

The team at Beijer Ref Australia
